# About Hospiton.

Since 2018, we've been bringing together the best and brightest minds from all corners of the healthcare world. Academia, design, business, science, patient communities, and industry leaders all come together with one purpose in mind: to accelerate purposeful health innovation.

We're talking about new treatments, revolutionary technologies, and game-changing ideas that will shape the future of health as we know it. So don't miss out on the chance to witness history in the making - join us at Hospiton and be a part of the health revolution!

## OUR VISION

To foster a culture of collaboration, experimentation, and innovation, empowering a community of changemakers to tackle health challenges and create transformative solutions that drive progress towards a better future.

## OUR MISSION

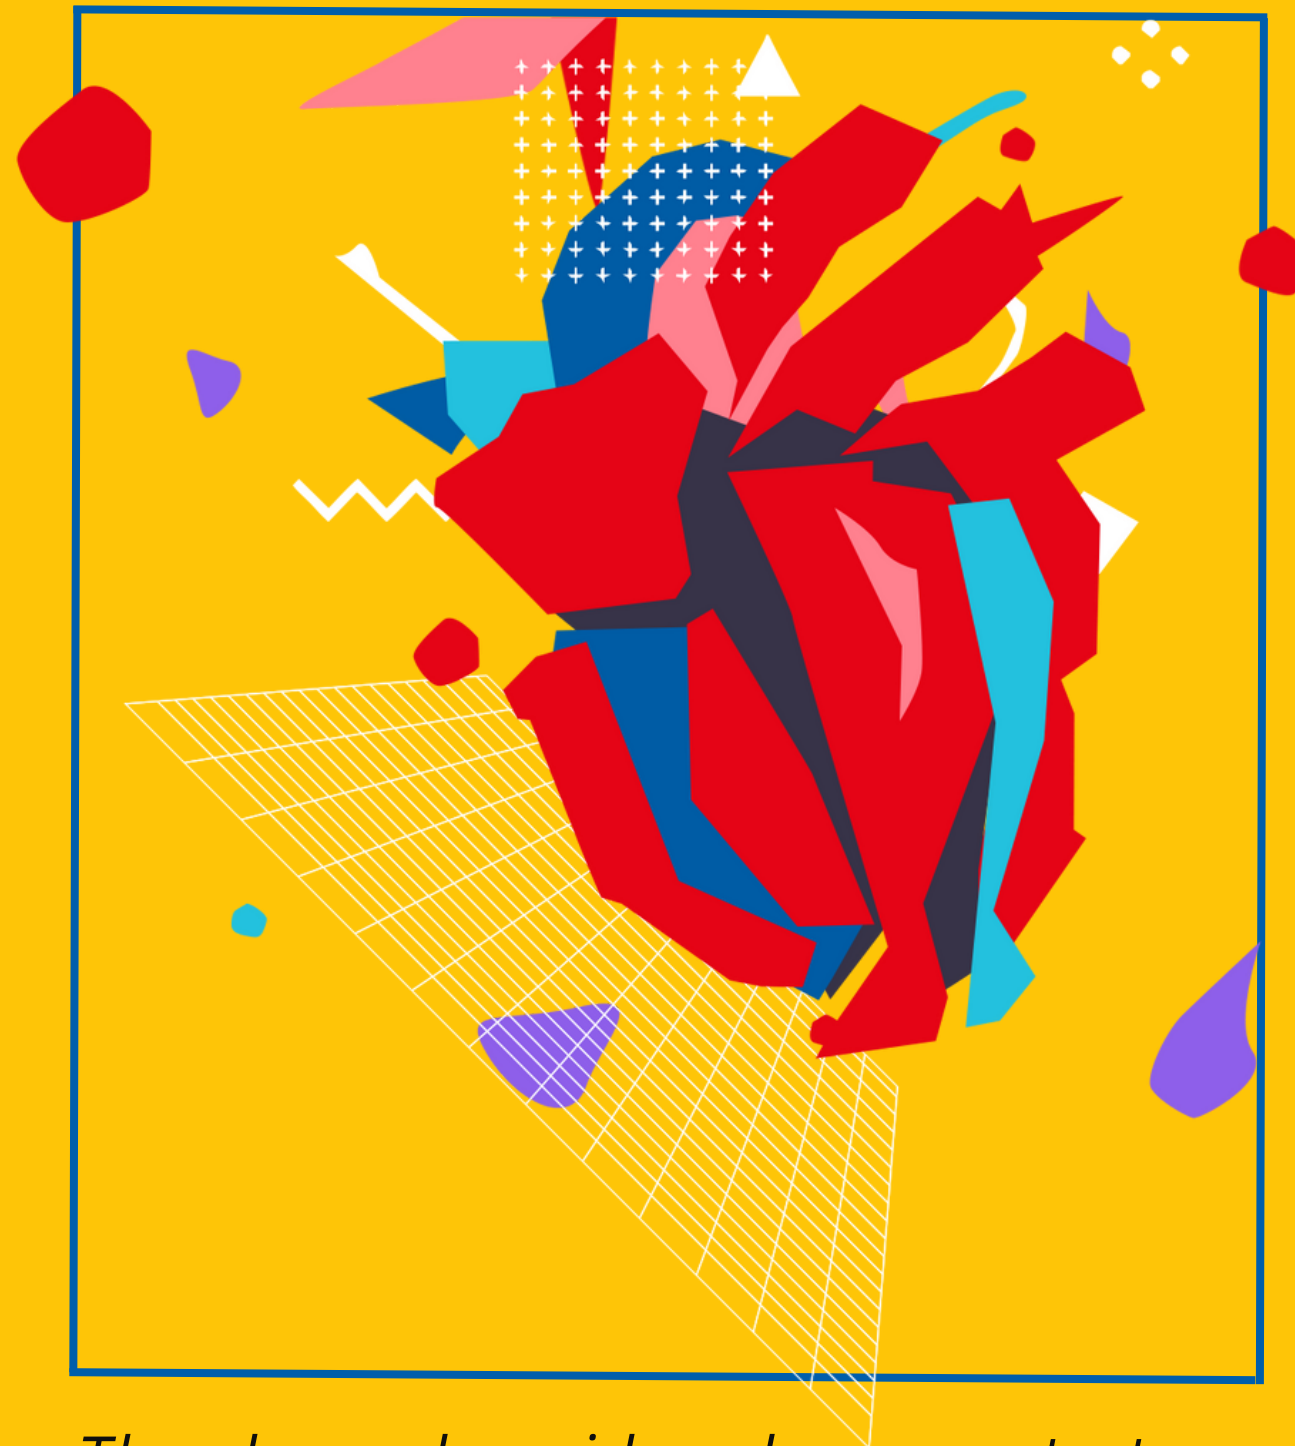

To provide an event that brings together diverse expertise, fosters creativity and problem-solving skills, and empowers participants to collaborate and develop cutting-edge solutions that positively impact society and drive progress towards a better future.

## OUR GOALS

- ▶ Encourage innovation in health that improve the quality of care.
- ▶ Learn from experienced entrepreneurs and business experts.
- ▶ Gain network with bright and passionate minds.
- ▶ Brave to start new experiences to create and grow the business.

**WELCOME  
TO  
HOSPITON**

*The place where ideas become startups*

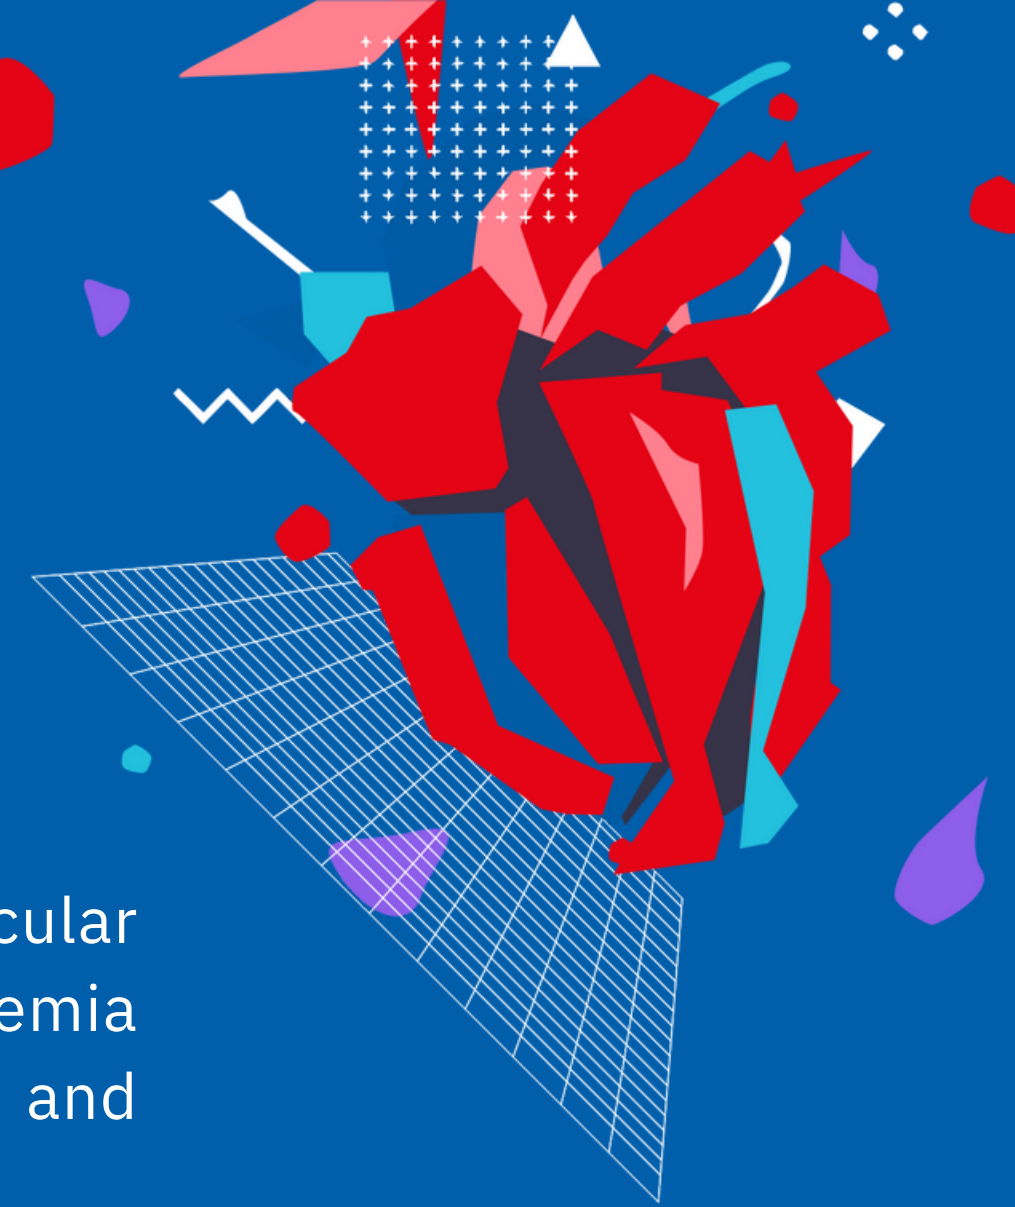

**CARDIO.  
CHOLESTEROL  
HACK**

# Hospiton Cardio. Cholesterol Hack

Hospiton's theme this year is "**Cardio. Cholesterol Hack**".

It's critical as dyslipidemia is a major risk factor for cardiovascular disease, the world's leading cause of death. Managing dyslipidemia through innovative solutions can reduce the risk of heart disease and related complications.

This condition requires a multi-faceted approach, and a hackathon is a perfect platform for collaboration and the development of innovative solutions to tackle this challenge.

# Hospiton Timeline.

**MAY-AUGUST**

**PREPARATION  
WORKS**

**JULY**

**PRE-REGISTER**

Be the first to know  
when registration  
opens for Hospiton  
Cardio. Cholesterol  
Hack

**SEPTEMBER**

**REGISTRATION**

Form a team or apply  
as an individual and  
find a team on the  
spot

**OCTOBER**

**PRE-EVENTS**

Get to know the  
problem and warm up  
to the others

**HOSPITON**

Unleash the Power of  
Hacking: Let's  
Revolutionize Health

# Hospiton Participants.

To create a better world, more than 100 practitioners and other healthcare and technology experts will come together in a 48-hour hackathon.

## HACKERS

Multidisciplinary groups consisting of health and business, marketing, IT, and engineering students and professionals, doctors, scientists, and innovation enthusiasts.

## SPEAKERS

There will be accomplished experts who are not only experts in their fields, but also skilled motivators ready to inspire and drive the audience.

## MENTORS

Mentors, industry leaders, cardiologists, experienced business professionals, and investors will impart their wealth of knowledge and experience to the teams.

## JURY

An esteemed jury of experts in their field will select the most promising ideas, ensuring that only the most innovative and impactful ones take center stage.

## SPECIAL HEALTH DATA TRACK

# Cholesterol Hack: Innovating with Data

### WHAT IS HEALTH DATA TRACK?

This special track is designed to revolutionize cardiovascular care through the use of statin data.

### WHY THIS TRACK MATTERS?

We encourage participants to create innovations based on health data. We believe Lithuanian innovators will actively use health data in the future and health care providers will share it more as a result of this initiative.

### TRACK MODERATOR AND PARTNERS

The State Data Agency of the Republic of Lithuania  
Moderator - Tomas Lasys

€ 3 000

### TRACK SPONSOR

- Track powered by X company
- Mentor / adviser from the company
- Logos on all event marketing materials
- Company mention in communication
